The Wyke Archers Six Gold End Badge

This exclusive badge is available to all members and is deliberately hard to win. Must be shot under competition rules with both the Club Line Captain and the Club Records Officer being made aware if you think you have achieved the minimum requirements. The target face is a 122cm standard FITA.

Either metric or imperial scoring counts as long as the arrows are all either in the 9, 10 or X ring (9 and X if Imperial) and line cutters DO count, with the Records Officer holding the final decision over any doubtful arrows. No arrow should be touched until the Records Officer has recorded the score. If the Records Officer is absent, then the score will be recorded by the Line Captain (or any other club committee member if both are unavailable).

Members can win this badge more than once, with a certificate being issued for each badge award. Winners will be awarded the certificate and badge free of charge by the club Records Officer.

The minimum distances available for the bow types and age groups are as follows:
